MARION, CRITTENDEN COUNTY, KENTUCKY, SEPTEMBER 14, 1905.

NUMBER 15.

THE ALFALFA TRAIN

Takes in the Whole of Kentucky.
Will Arrive in Marion Oct. 3.

The Alfalfa Train will arrive in Marion Oct. 3rd, at 5:40, p. m. and remain until 8, a. m. Oct. 4th. Below will be found the itinerary: Route No. 1 is from Louisville through the Blue Grass Region. Route No. 2 to points on the L. & N., and Route No. 3 points on the I. C. as mentioned, in part, below:

The itinerary of the "Kentucky Alfalfa and Corn Special" train which will leave Louisville Monday, September 25, and make three trips, covering all parts of the state, has been announced by Hubert Vreeland, the State Commissioner of Agriculture. The train will leave Louisville at 8:15 o'clock on the morning of Sept. 25, and between that date and Oct. 4 will make three trips to different parts of the State.

The train is being sent out as a kind of railroad school to educate the farmers at first hand of the value of alfalfa as a food crop and of the practicability of its being grown in Kentucky. Alfalfa, it has been shown, is one half richer in protein than clover, and four cuttings of it each year can be had in this State. It is the best forage crop in the world. Horses, chickens, hogs and all kinds of live stock eat it with relish and thrive on it.

From two and a half to three tons to the acre can be raised from the first cutting, and from all the four cuttings six to eight tons per acre can be secured. An excellent poultry food is made by grinding alfalfa, and samples of this food are now being sent all over the country. Stock will walk over clover to get alfalfa. It is one of the best known fertilizers. If, it is said, Kentucky can grow alfalfa in sufficient quantity it will mean that this State can compete with the western States in the making of beef, whereas in the past the farmers of this State have had to feed corn as against alfalfa, and competition was impossible.

OCTOBER 3.

Arrive at Paducah	2:56pm
Leave Paducah	3:05pm
Arrive Princeton	4:20pm
Leave Princeton	4:35pm
Arrive Fredonia	4:55pm
Leave Fredonia	5:25pm
Arrive Marion	5:46pm

OCTOBER 4.

Leave Marion	8:00am
Arrive Sturgis	8:35am
Leave Sturgis	9:05am
Arrive Morganfield	9:40am
Leave Morganfield	10:10am

TOGO'S FLAGSHIP

Goes Down to the Bottom of the Ocean—599 Lives Lost.

Tokio, Sept. 12.—The Japanese battleship Mikasa, which was the flagship of Vice Admiral Togo during the battle of the Sea of Japan, caught fire and sunk at 2:30 a. m. yesterday.

The loss of life by the sinking of the battleship Mikasa reaches a total of 599 officers and men, including detachments from other warships, which went to the rescue of the burning vessel.

Fertilize.

I will deliver two cars of Virginia Carolina Fertilizer at Marion and one at Fredonia. If what you have been using has failed to make wheat, or drills badly, or costs too much money you have not been using the Virginia Carolina brands and should give them a trial.

R. F. WHEELER.

MINING NOTES.

Our Cave-in-Rock correspondent sends the following:

A few days ago I asked Mr. John C. Miller, Superintendent, to furnish me with the facts about the plant of the Evansville Lead and Spar company, located six miles northwest of this place. I send you herewith his reply, which you may use as you wish. I regard this a wonderful showing, when taken in connection with the fact that they have gone down only eighteen feet. He sent me about 100 pounds of specimens of lead, spar, galena and carbonate of zinc for your mineral cabinet, which I promised to deliver to you at the earliest opportunity. Hardin county is certainly the place for investors to investigate.

"During the month of October, 1904, Mr. Geo. L. Miller, of Evansville, Ind., arranged with Mr. Lawrence Cruce, of Marion, Ky., for the purchase of a 40 acre tract of land on the west slope of what is known as Lead Hill, on the Sylvester Collins land. A company of ten Evansville, Ind., men was formed and incorporated under the laws of the State of Indiana with a capital stock of \$25,000, and prospecting begun before the end of the month. The corporate name of the company is Evansville Lead and Spar Co. By the following spring the prospects were so flattering that the company decided to put in an engine and compressor and now are working two drills with compressed air. They have up to the present time taken out at least 800 tons of spar, carbonate of zinc and lead ore. Many nuggets of pure galena have been found weighing 100 pounds and over, and boulders of carbonate of zinc weighing at least 1,000 lbs have been encountered. The company in the past month have decided to erect a concentrating plant, and during the past week have signed a contract with the American Concentrator Co. of Joplin, Mo., for machinery, and Mr. John C. Miller, Supt. of the mine, will leave for Evansville, his home, to arrange for the necessary material for a suitable building. The company have also secured lease on adjoining thirty acres, which gives them control of seventy acres of the finest mineral prospect in this mineral district. Their land joins the recently sold Riggs land, which sold for five hundred dollars per acre.

A tract of twenty acres of land near Cave-in-Rock, Ill., the Collins property which was sold to John A. Miller and associates of Evansville, Ind., was purchased recently by Mr. Robinson of Harrisburg, Ill., for \$10,000. These parties, who are working the Collins property, have on their dump pile 400 or 500 tons of very rich carbonate of zinc and lead ore. The party who sold the land was Mrs. Riggs.

From the mining work and building being done the Schoolfield-Spees mines are becoming a permanent institution, says the Carrsville correspondent of the Press. The company in charge seems to think that money makes money. Experts have fixed the location of these mines to be on the fissure vein leading in a southerly direction from Fairview, Ill., and it is only a question of time, together with vigorous, skillful work, when something valuable will loom up.

Fell in a Well.

Dow Little was seriously hurt Saturday afternoon by falling in a well in the rear of G. E. Grisson's residence on North Main street.

The accident occurred by the rope breaking or coming untied just as he was lowering himself in to the well.

He fell about 35 feet and was considerably shaken up and bruised, and the miracle is that he was not instantly killed.

He is reported to be getting along nicely and will not be confined to his room but a few days.

THE TICKET

Is Named, is an Excellent One, And Looks Like a Winner From the Start.

The Democratic County Committee met in the opera house in Marion on Monday morning at 10 o'clock. The committee was called to order by the county chairman, C. S. Nunn. After the meeting was called to order and the purpose of the meeting was stated by the county chairman the committee unanimously elected C. S. Nunn as temporary chairman, and W. H. Clark was unanimously elected as temporary secretary.

After nominations were declared in order the following persons were unanimously chosen and elected as Democratic candidates for the county offices:

County Judge—J. G. Rochester.
Sheriff—J. F. Casner.
County Clerk—Dave Woods.
County Attorney—Thos. Champion Jailer—Dave Bryant.
County Surveyor—W. O. Wicker.
Coroner—Marion Brightman.
Assessor—Thos. E. Griffith.

The office of county superintendent of public schools was left open to be acted upon in the future. The meeting was the best attended in years, every precinct being fully represented. A committee consisting of Hon. O. M. James, John W. Blue and Ed Flanary was appointed to select and name the Democratic election officers for the November election.

Child Seriously Hurt.

Saturday as Richard Flanary was driving into town his horse became frightened at a steam drill operating on Dudley Pope's lot opposite Gilbert's blacksmith shop. Charlie Flanary's little girl was in the buggy with him, and although Mr. Flanary made special efforts to hold the horse he failed to do so, and the horse ran away and demolished the buggy and threw the little girl out on her head, cut a deep gash across the side of her head and slightly fractured her skull. Drs. Frazer and Daugherty removed a few small particles of bone and sewed up the gash.

They think that she will get along all right, not suffering any serious consequences from the accident which came so near being fatal.

HIGH WIND

Unroofs the Business House of O. L. Pickens in Arizona.

From an Arizona exchange we clip the following, which will be read with much regret by the many friends here of Otho Pickens:

"Otho L. Pickens, who is engaged in business at Roosevelt, came down from the damsite town last evening. He tells of the high wind which occurred there Wednesday evening and which did considerable damage. The wind blew at a regular hurricane rate for a few minutes. There were a number of houses damaged and quite a few people were hurt. Mr. Pickens was the worst sufferer, the roof of his building, a frame structure, was lifted off and carried some distance. Mr. Webb, who has a store next door had the rear end blown in and a number of cases of shoes he had stored there were damaged. Mrs. Clark, who was in her tent at the time, had it lifted from its moorings and thrown on top of her, and when assistance reached her she was found unconscious. Grave fears are entertained for her recovery. Finley McGuire also had his tent blown on him, and was nearly suffocated when he was rescued."

Help a Child to Find a Home.

The Kentucky Children's Home Society has grown to be one of the greatest child saving agencies in America. The success of the work is due to the good people of the State who have opened their hearts and homes to the homeless, destitute children under our care.

Sixty or seventy bright, sweet children are sent to us each month, and it is necessary in order to provide for other neglected little ones to find good homes for the children now under our care.

Have you child in your home? If you have do you not think take another little one to raise and rear into good citizenship? Will you not help us by giving a home or finding a home for a child of any age from infancy to girls and boys of twelve years of age.

The Master said: "In as much as ye have done it to one of the least of these, ye have done it unto me."

If you are interested in the work, write for particulars to

Geo. L. SEHON, State Supt., Room 515 Masonic Building, Louisville, Ky.

W. S. ADAMS RESIGNS

Will Be Succeeded By Luther T. Farmer.

W. S. Adams, for over six years chief deputy collector under E. T. Franks, collector of internal revenue for the Second collection district, resigned his position yesterday, his resignation to take effect on October 1. Luther T. Farmer, an office deputy since January, 1901, has been promoted to the position of chief deputy.

The announcement of Mr. Adams' resignation will come as a surprise to his friends in Owensboro and Marion, Crittenden county, his former home.

Mr. Adams is making arrangements to leave Owensboro for Arkansas, where he owns a valuable farm. He also thinks the climate of Arkansas will be more beneficial to his health.

"Mr. Adams made one of the best officers in the service," said Collector Franks yesterday, "and I regret very much he has resigned. His resignation came as a great surprise to me. I have appointed L. T. Farmer, an office deputy to succeed Mr. Adams. I am not ready to announce who I will appoint in Mr. Farmer's place."

Mr. Farmer is one of the youngest clerks in the local revenue office. His home was at Marion. He is a relative of Mr. Franks. He will doubtless make a capable chief deputy.—Owensboro Messenger.

Important Cases on the Docket.

Monday was County Court day and his honor, Judge Towery, had one of the most important cases on the docket that has ever come up before him, being the suits against several mining companies for back taxes.

The case against the Commodore Mining Company was dismissed, as it was proven that they had not been in the mining business a year yet.

Attorney J. W. Blue, for the Kentucky Fluor Spar Co., filed a motion, citing the statute which required them to show wherein the companies had failed to pay taxes and requiring them to itemize their bill of charges for back taxes.

The court sustained the motion and ordered the plaintiff to file an amended petition at the next term of court.

Black Cloud's Colt Show.

Will be held at Fish Trap Saturday, Sept. 23rd, at 2 o'clock p. m. First and second premiums will be awarded best suckling colts. Parties owning suckling colts by Black Cloud, and also 1, 2 and 3 year olds are invited to bring them to the show. It

F. M. BABB, Piney, Ky.

OPEN MEETINGS.

Are Being well Attended Each Friday Night—Will Meet Again Friday Evening.

Much interest is being manifested in the great opening day planned by the merchants and citizens of Marion at the end of the building season.

At the opening meetings of the Commercial Club, which have been held in the court house during the past two weeks, the plans for an opening day of the new and better Marion have already developed to a point where it is safe to promise a "Red Letter Day" for those who can come to Marion on that day.

At the meeting on last Friday night it was decided; Tuesday Oct. 24th, would best suit the majority of people interested, and allow ample time for nearly every merchant or professional man to secure permanent quarters. It has since been discovered, however, that Tuesday is too early in the week to make preparations for a festival of the magnitude planned without the entertainment committee and helpers working all day on the Sunday preceding. It is probable, therefore, that Wednesday Oct. 25th, will be selected instead at the meeting to be held next Friday evening, when the question of changing the date will be brought up and voted upon.

Next week announcement will be made of the exact date chosen, together with the manner of entertainment which will be furnished visitors to the city on the opening day.

The committee on factory locations reported good success in their efforts to interest the business men and citizens generally in securing one or more factories for this city.

Everybody who can is requested to attend the meeting at the court house next Friday evening at 2 o'clock, for while a few can plan and act on such important measure, it takes a crowd to generate enthusiasm and secure support sufficient to accomplish the greatest success.

C. H. WHITEHOUSE,
Chmn. Press Com.

Deeds Recorded.

C. W. Fox to Juliet Fox 2 tracts of land on Claylick creek \$1 cash in hand, love and other considerations.

G. W. Jones to W. E. Charles 1 tract of land near Dyeusburg, love and affection.

Miss Martha F. Franks to Great Northern Mining and Milling Co. 1 tract of land, 46 acres, near Deer creek \$6,000.

J. N. Cully to Lula T. Reese mineral right on 80 acres on Tradewater \$100.

Marriage License.

Frank B. Hays—Rosa L. Wright.
P. G. Baker—Georgia Imboden.

CITIZENS' TICKET.

The conference committee of the two political parties composed of J. W. Blue, J. P. Pierce, Sam Gugenheim, Gus Taylor and D. B. Kevil for the Democrats and J. A. Moore, W. B. Yandell, G. E. Shively, W. T. Daughtrey, and G. M. Crider for the Republicans, met Tuesday afternoon and selected the following ticket:

For Mayor—A. C. Moore.
For Councilmen—Edgar James, Ed. Flanary, Will Cannon, Democrats; and Henry Stone, John Pickens, Henry Paris, Republicans.

For the office of city judge it was decided to allow the names of J. H. Walker and J. B. Kevil to be put on the ticket, both as independents and each under his own device.

The other city offices, attorney, marshal and clerk are appointive.

Much satisfaction has been expressed as to the above ticket, which is composed of high toned, honorable men, as good as could be found in the town.

Telegraph Operators Wanted.

Never in the history of the country has there been anything like the present demand for Railroad and Commercial Telegraph Operators. The different Telegraph Companies and Railroads are having great difficulty at this time in securing proficient, qualified and competent operators. Supt. J. L. Kollorohs, of the National School of Telegraphy, Bowling Green, Ky., has on file in his office recent letters and telegrams calling for more operators than there are students in actual attendance. This school has never yet failed to locate every student immediately upon graduation. Any one desiring to take a thorough course in Telegraphy should not fail to write for Catalog and full particulars. Address H. H. Cherry, President, Bowling Green, Ky.

Courses of Study.

The following courses of study are given by the Southern Normal School and Bowling Green Business University: English, Teachers', State Teachers', Engineering, Preparatory, Scientific, Classical, Elocution, Law, Vocal Music, Instrumental Music, Business, Shorthand, Typwriting and Telegraphy. Address H. H. Cherry, President, Bowling Green, Ky.

Pens of Fancy B. P. Rocks.

In order to make room for our stock the coming winter we offer to make up pens of six fancy birds for \$5.00, mated for the best effect. Now is the time to purchase your cockerels for next years blood. Hundreds to select from at \$1.00 each.

Mrs. W. L. KENNEDY,
Lola, Ky.

Fine Seed Wheat.

I have 100 bushels of Fultz—Mediterranean wheat for sale at \$1.00 per bushel at my farm.

A. F. WOOLF, Iron Hill.
